

Exhibition during the 26th IAEA Fusion Energy Conference 2016

IAEA Member States, accredited organizations and commercial companies are invited to take part in the exhibition to be set up as a side event to the 26th IAEA Fusion Energy Conference 2016. The exhibition will be located in the Annex Hall of the Kyoto International Conference Center where the poster sessions will be held (<http://www.icckyo.or.jp/en/floor/annex.html>).

Participation in the exhibition provides a unique opportunity to demonstrate achievements in fusion research and development to conference participants and representatives of the media.

IAEA Member States, accredited organizations, and commercial companies are invited to submit their requests for space, together with the title and a short description of the concept and content of their planned exhibition to the local Host (exhibition@fec2016.jp) as soon as possible. Please note that there will be a charge for exhibition space. In addition, sponsorship of the conference by participating accredited organizations and commercial companies is encouraged. For further information regarding exhibition space and sponsorship, please contact the local Host or view this homepage (<http://www.fec2016.jp/exhibitions.html>) for detailed information.

The deadline for submitting a request for a space reservation is 31 August 2016.
