

26th IAEA Fusion Energy Conference
17-22 October 2016
Kyoto, Japan

Guidelines: Poster Preparation and Display

These guidelines are relevant to authors who have had an officially designated abstract to the conference accepted by the Programme Committee.

For the respective timing of the poster presentation please see the detailed conference programme which will be posted on the conference website soon. The "timetable" link will indicate the timing and session.

The poster boards available for the poster contributions are of the following size: 1900mmx1200mm (height x width).

It is therefore recommended that the size of each poster contribution be approximately: 1100mmx850mm (height x width).

The full manuscript of poster papers should be submitted through the IAEA-INDICO file submission system. Authors are requested to follow the instructions on formatting of the paper available at that platform. IAEA-INDICO will be reopened for submission of accepted papers in PDF format on 22 August 2016 and will close on 25 September 2016. The IAEA will not accept regular papers submitted after the deadline, and any subsequent submission by email will not be accepted.
