

GUIDELINES ON THE PREPARATION AND PRESENTATION OF A POSTER FOR IMIC2016

PREPARATION OF A POSTER

Each poster author will be assigned a poster board (layout: portrait).

The size of the boards is:

Height: 210 cm, Width: 90 cm

All posters should be size A0 (118.8 cm x 84.0 cm).

The top of the poster should display, in lettering not smaller than 3 cm in height, the following information:

TITLE OF PAPER, NAME(S) OF AUTHOR(S), AFFILIATION(S), POSTER NUMBER

The poster should be easily readable at a distance of two metres. Use UPPER and lower case for general content, as all-capital text is difficult to read. Avoid using mixtures of type/font styles.

Information on a poster should **attract attention**. It should therefore be limited to the most **important facts only**. The poster should be divided into:

Background
Methodology
Results
Conclusion

It is advisable to leave details and explanations for the face-to-face discussions.

Text and presentation should be in **English only**.

Please bring your printed poster with you to the conference. **The IAEA will not be able to print your poster on-site.**

PLEASE NOTE that further details on the possibilities for arranging the displays in the POSTER area will be given at the beginning of the conference.

Mounting, presentation and dismantling of posters

All posters should be mounted on **Monday, 10 October 2016** on the appropriate poster board (labelled with your poster number) as early as possible, preferably before the start of the opening ceremony (9.00 a.m.).

All posters will be displayed throughout the conference.

Face-to-face discussions will take place during **Poster Review Sessions** on Monday-Wednesday. For respective times please check the agenda. Timing of face-to-face discussions will be communicated subsequently.

Please remove your poster at the end of conference.
