THE VIENNA INTERNATIONAL CENTRE (VIC)

The Vienna International Centre (VIC) or 'UNO City' was designed by the Austrian architect Johann Staber and inaugurated on 23 August 1979. It is located on the banks of the River Danube, only a 10 minute ride by underground (U-Bahn) to the city centre. The Austrian Government is leasing the building for 99 years to the International Atomic Energy Agency (IAEA) and to the other United Nations and international organizations in Vienna at a symbolic rate of €1 per year.

In addition to the IAEA, the VIC accommodates other United Nations and international organizations, which are listed at the end of this booklet. The VIC comprises several buildings, labelled A to M. Buildings A and B house the IAEA. Building M is the main conference building. Buildings D and E house UNOV, UNIDO, CTBTO and other UN entities, and buildings F and G house various IAEA support services such as the computer centre, the print shop, the medical centre and the library, as well as the VIC restaurant.

The official address of the IAEA is: International Atomic Energy Agency, Vienna International Centre, PO Box 100, 1400 Vienna, Austria.

HOW TO REACH THE VIC

By public transportation

The VIC can be reached with the U-Bahn by taking the line U1 (marked in red on city maps) towards Leopoldau and getting off at the station Kaisermühlen-Vienna International Centre. Single tickets, multiple tickets for 2, 4 or 8 rides or for 1, 3 or 8 days, and weekly tickets can be purchased from vending machines in all U-Bahn stations or at tobacco shops marked Tabak Trafik, and also at the VIC newspaper stand located in building C. The weekly ticket is valid Monday through Sunday with unlimited use of all Viennese public transport facilities (U-Bahn, bus, tramway, S-Bahn (Schnellbahn)).

Further information can be obtained at: www.wienerlinien.at

By taxi

As all participants will have to go through the registration formalities, passengers should ask the driver to drop them off at Wagramer Strasse 5, Gate 1. For departures, a taxi may be requested at UN Security and Safety Services, Gate 1. An additional fee is charged for taxis ordered by telephone. The customary tip in Austria for taxi drivers is 10% of the fare.

Please note that there may be an extra charge for luggage, which is not shown on the meter.

From Vienna Airport

By bus: The Vienna Airport Lines operate seven days a week, at hourly intervals, from 6:10 to 20:10. The VIC bus station is located on Wagramer Strasse in front of Gate 1. The trip takes about 30 minutes.

By train: There are two options: First there is the S-Bahn (Schnellbahn) from the airport to the City Air Terminal located next to the Hotel Hilton. The S-Bahn leaves approximately every 30 minutes. The trip takes about 25 minutes. After arriving at the City Air Terminal change to the underground line U4 and then U1 (see info listed under public transportation) to get to the VIC. The second option is the City Airport Train (CAT), linking the airport with the City Air Terminal. The trip takes about 16 minutes (passenger fare is €9 for a single ticket and €16 for a return ticket).

For further information, please visit: www.cityairporttrain.com and www.tripadvisor.com.

MEETING REGISTRATION

IAEA meeting participants should arrive at the VIC one hour before the start of the meeting on the first day, in order to allow sufficient time for registration and issue of grounds passes.

Upon arrival at Gate 1, meeting participants are requested to identify themselves with their national passport or a valid official identification document at the IAEA registration desk. Meeting participants should bring their invitation letter to facilitate the check-in process. Unannounced meeting participants or visitors will only be admitted to the VIC if they can produce evidence of the purpose of their visit or an invitation letter from the IAEA.

The UN Pass Office will issue a grounds pass with photo. **Please note that it is mandatory to wear the grounds pass visibly at all times while on the VIC premises.**

In the case of an unannounced arrival, the UN Security and Safety Service needs to obtain confirmation of participation in a meeting. This may delay the registration process.

Meeting participants who have special requirements should notify the Scientific Secretary of their meeting or the Conference Services Section in advance about the kind of assistance they require. Based on the information received, these will make the necessary arrangements with the UN Security and Safety Service.

EMERGENCY PROCEDURES

UN Security and Safety Service (UNSSS)

Persons with physical disabilities (permanent or temporary) that would exclude them from active participation in an evacuation of the premises are requested to notify the UNSSS at the time of registration for a meeting. In the event of an emergency evacuation, those persons will be attended to by staff assigned by the floor's Evacuation Officer/ Scientific Secretary (if appropriate), or by UNSSS personnel.

The Security Control Centre is equipped with a public address system within the different buildings, in the park decks and on the plaza. Should an emergency situation arise requiring a general (all areas) or partial (selected buildings) alarm, the appropriate announcement — starting with the word “attention” — will be made by UNSSS. All persons within the premises must pay attention to such an announcement and follow the instructions.

When an alarm is given in your area:

- Stop working,
- Shut off (and disconnect to the extent possible) all electrically powered equipment,
- Clear aisles of obstructions,
- Follow the advice of your Scientific Secretary/Technical Officer or Conference Services staff/UNSSS personnel and evacuate the area via the nearest emergency exit.

Public assembly areas both within and outside the VIC premises have been designated by UNSSS and will be made known, as the situation requires.

Summary:

- Be prepared for fire and other emergencies at any given time,
- Be familiar with the location and use of fire extinguishers and push-button alarm boxes,

- Familiarize yourself with your exit drill plan and cooperate with your Scientific Secretary and his/her team to the extent possible,
- Do not remain in, or return to, an area which is being or has been evacuated.

Remember the emergency sequence:

- (1) **Report** (fire, smoke, burning smells and other emergencies) and alert (by voice) persons in the vicinity of the incident,
- (2) **Rescue** (persons injured and/or in imminent danger, **BUT** do not expose yourself to danger),
- (3) **Extinguish** (fight fires only during their initial stage, **BUT** do not expose yourself to danger and make sure that your escape route is safe!).

How to Report an Emergency:

Call 99 and state the following:

WHERE Give the exact location of the emergency.

WHAT What is the nature of the emergency (e.g. fire, medical)?

Are there any persons in imminent danger? Report on injuries in addition to any other relevant details.

WHO Give your name and room number and stay on the telephone line until the security officer ends the call.

Answer the Security Officer's questions to the best of your knowledge; keep to the facts (no guesses/assumptions). Do not hang up: the Officer will terminate the call!

What to do in the aftermath of a crisis at the VIC

In case of a crisis of any nature (e.g. fire, terrorist attack, health epidemic) at the VIC, the Agency has developed an Agency-wide crisis recovery plan. Evacuation of the VIC would be coordinated by the United Nations Security and Safety Service, but the IAEA Crisis Recovery Team would subsequently need to be able to account for all staff and meeting participants in the VIC.

The IAEA Crisis Recovery Team has set up an external email address (iaeaconf@gmail.com). In order to be able to establish the status of meeting participants as quickly and efficiently as possible in the event of a crisis, you should send an email as soon as possible after leaving the VIC to this email address and provide the following information:

- Your full name,
- Your status (injured/healthy),
- The title of the meeting you were attending,
- Your present location/address,
- Your present telephone contact details.

Please do not try to contact the IAEA by phone, as phone lines need to be kept as free as possible. Meeting participants should check the IAEA website (<http://www.iaea.org>) regularly in the aftermath of a crisis to get the latest information on current and future meetings. To the extent possible, the IAEA will subsequently contact meeting participants by email or by phone to provide updated meeting information.

We would request you not to talk to the media. Any media inquiries should be directed to the IAEA Crisis Management Group.

If you were evacuated from the VIC in the aftermath of an incident likely to result in contamination of any kind, avoid close contact with other individuals to the extent possible and administer self-decontamination (thorough full body wash, seal contaminated clothes in an air-tight containment) at the earliest possible stage.

If you experience any post-incident medical issues, proceed to the nearest hospital forthwith or, in severe cases, call the national medical emergency service number 144.
