

Radioactive Waste Management Profiles

a Compilation of Data from the
Net Enabled Waste Management Database (NEWMDB)

No . 4*

INTERNATIONAL ATOMIC ENERGY AGENCY

IAEA

November 2002

*Previous publications in this series contained reports on data collected and managed by the IAEA in its Waste Management Database (WMDB), which was superseded by the NEWMDB in 2001.

EDITORIAL NOTE

Staff of the IAEA prepared this report based on data submitted by IAEA Member States to the Agency's Net Enabled Waste Management Database (July 2001 to March 2002). The accuracy and completeness of the information in this report is directly related to the quality of the information provided by authorized representatives from Member States.

Throughout the text, names of Member States are retained as they were when the text was compiled.

The use of particular designations of countries or territories does not imply any judgment by the publisher, the IAEA, as to the legal status of such countries or territories, of their authorities and institutions or of the delimitation of their boundaries.

The mention of names of specific companies or products (whether or not indicated as registered) does not imply any intention to infringe proprietary rights, nor should it be construed as an endorsement or recommendation on the part of the IAEA.
