

OBJECTIVES OF THE CONFERENCE

To review:

existing, potential and the most promising organizational and technical multilateral approaches to the nuclear fuel cycle;

associated constraining and facilitating legal, economic, technical and safety-related factors;

possible options for the practical implementation of multilateral approaches.

With a view to ensuring:

guaranteed supplies of nuclear fuel for nuclear power plants and research reactors;

safe spent fuel management, including storage and reprocessing;

restricted use of isotope enrichment and nuclear fuel reprocessing technologies.

PROGRAMME STRUCTURE

The Conference programme envisages:

Plenary meetings - days 1 and 3;

Workshops - day 2;

Oral presentations and contributing papers

INSTRUCTIONS FOR AUTHORS

Synopsis of paper (not exceeding 300 words) including the title of the paper, the names of the authors, and the names and addresses of their institutions.
