

INSTRUCTIONS ON HOW TO PREPARE THE SYNOPSIS AND HOW TO SUBMIT IT ELECTRONICALLY USING THE TEMPLATE.

Anyone wishing to present a paper or a poster at the Conference must submit an electronic version of the **Extended Synopses** of up to **600 words** (in English) **before 10 December 2003** to the following e-mail address at the IAEA: papersnenp114@iaea.

Authors are urged to make use of the Synopsis Template in Word 2000 on the Conference web page. The specifications and instructions for preparing the synopsis and how to use the template are given in the attached "*Instructions on how to prepare the synopsis and how to submit it electronically*". Also attached is a "*Sample Synopsis*".

The synopsis should give enough information on the contents of the proposed paper to enable the Programme Committee to evaluate it. Introductory and general matters should not be included

A copy of the Synopsis together with the completed Form for Submission of a Paper (**Form B**), and the Participation Form (**Form A**) must be sent to the competent national authority for official transmission to the IAEA.

Please note that the Synopsis will be accepted by the Programme Committee only if the Participation Form A and Paper Submission Form B have been received by the IAEA through official government channels. Deadline for receipt of the **official forms** at the IAEA is **20 January 2004**.

Specification of layout of synopsis

- Page size: A4 (297 mm by 210 mm) – vertical (portrait) orientation
- Full margins (left/right/top/bottom): 25 mm
- Layout: single-spaced
- Alignment: left
- Font: Times New Roman only
- Title: 14 point size, bold
- Authors: 12 point size
- Affiliation and e-mail address: 12 point size
- Text: 12 point size
- Length: maximum two pages (800 words)

How to access the synopsis template

For users at the IAEA:

To create a new document using this template in MS Word, choose "*File/New*" and select the "*IAEA Synopsis*" template under the "MTCD" tab. Select "*Create New Document*" and click the "*OK*" button.

For users outside the IAEA:

The template has been developed for Word 2000 for Windows. If used in Word 97 some functions may not be available. However, we recommend using the template even if you have Word 97, since it will help ensure that the layout of your synopsis conforms to IAEA publishing standards.

Use of template

To use the template, save it in under “*Tools/Options/File Locations/User templates*”. To create a new document using this template in MS Word, choose “*File/New*” and select “*IAEA Synopsis*” under the “*General*” tab. Select “*Create New Document*” and click on the “*OK*” button. (Please note that the template will not work if opened using “*File/Open*”).

Synopsis Properties

When a new document is created, the initial dialog box (called “*Synopsis Properties*”) will appear on your screen and should be filled out as directed. In case of more than one institute, each institute should be a “*New*” entry. When the “*OK*” button on the dialog box is clicked, the information entered is saved and inserted at the appropriate places in the paper.

The dialog box can be recalled from the “*IAEA Synopsis*” dropdown menu on the “*Standard*” toolbar under “*Show Synopsis Properties*” and the information in it altered. Setting the synopsis properties through the dialog box will ensure that the title block in the document you produce is formatted in the manner requested by the IAEA.

Checking Fonts

For the text of the synopsis, font “*Times New Roman 12*” should be used. For the title of the synopsis please use font “*Times New Roman 14*”. The “*Check Fonts*” function helps ensure that this is the case by detecting non-compliant fonts and replacing them throughout the document with compliant ones.

Bullets and Numbers

The template provides predefined bullet and numbered lists. Please select the text you wish to have in a list and click the desired button. Indenting list items (promoting and demoting to the desired level) as well as for removing the list formatting can then be carried out using the functions in Word.

Note: All the items available in the “*IAEA Synopsis*” menu are also available as separate toolbar buttons.
