

## **PHOTO EXHIBITION**

### **'NUCLEAR MEDICINE PEOPLE'**

This exhibition will feature photographs related to nuclear medicine and nuclear medicine people. No clinical scans or photographs should be included. The theme will be nuclear medicine people, working, singing, dancing, eating, drinking, enjoying life, making fun, cutting jokes etc. etc. It is intended to show the happy face of nuclear medicine.

All participants are invited to contribute to this photo exhibition and to share their memories of past nuclear medicine events with the rest of the nuclear medicine people who will be gathering at Porto-Alegre from 19-23 January, 2004. Please bring photos, all sizes and shapes, be very, very selective, think of a catchy caption (Slogan) for each photograph that you bring, print in bold letters (Times New Roman font, size should be proportional to the size of your photograph) and bring them along with your photos. Transparent sheets will be available to display the photos in the exhibition hall. The captions will be pasted below or by the side of each photograph. Please make sure that the photos are of good quality and of reasonable size so that they are visible from a distance. You may bring framed photos, very large photos etc. if you think that they are interesting.

Dr. Abdul Khader Mohamed Ali will be in charge of this exhibition. Please find below Dr. Ali's address and contact numbers.
