International Ministerial Conference on
Nuclear Power in the 21st Century
Saint Petersburg • 27–29 June 2013

ROSATOM

The International Atomic Energy Agency (IAEA) is organizing the International Ministerial Conference on Nuclear Power in the 21st Century

065 DAYS TO THE CONFERENCE Registration

Nuclear power remains the best known peaceful application of nuclear energy. Despite the Fukushima Daiichi accident of March 2011, it is clear that nuclear energy will remain an important option for many countries —
Director General of the IAEA
Yukiya Amano

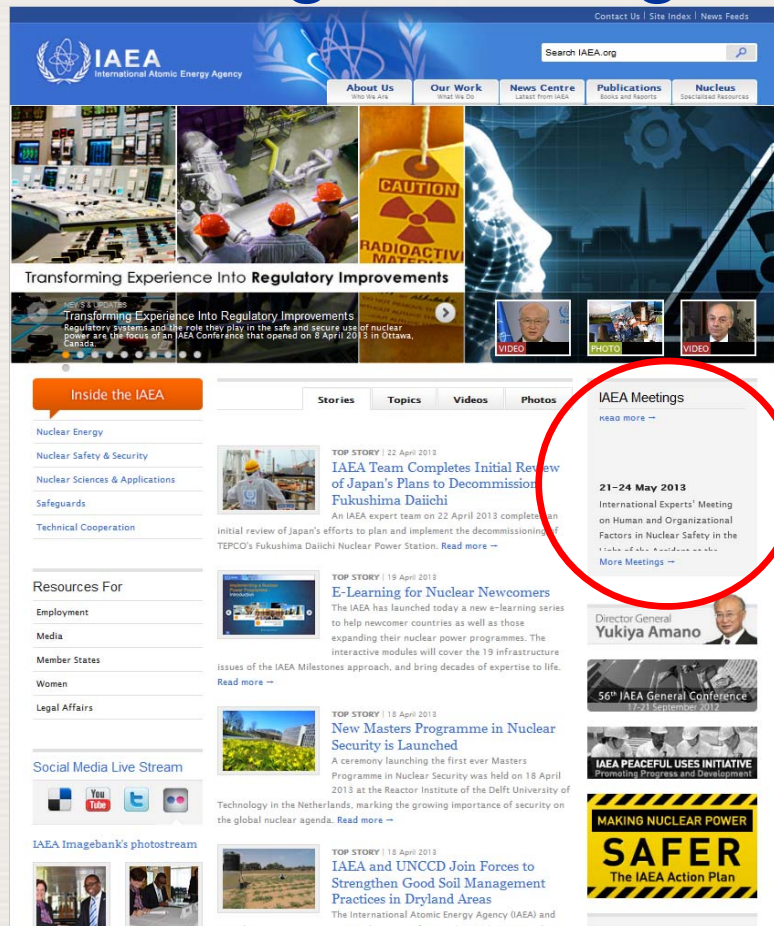

On behalf of the Government of the Russian Federation I am glad to welcome you to the IAEA conference Nuclear Power in 21st Century —
Sincerely,
Director General
State Atomic Energy Corporation ROSATOM
Sergey Kirilenko

About the Conference
International Atomic Energy Agency (IAEA) in collaboration with the government and with the support of the State Atomic Energy Corporation ROSATOM organized the International Ministerial Conference on Nuclear Power in the 21st Century from 27–29 June 2013 in St. Petersburg.

Nuclear Power in the 21st Century

iaea.org, meetings

The screenshot shows the IAEA website homepage. The top navigation bar includes links for 'About Us', 'Our Work', 'News Centre', 'Publications', and 'Nucleus'. A search bar is located in the top right. The main banner features a collage of images related to nuclear energy, including a control room, a worker in a hard hat, and a 'CAUTION RADIOACTIVE MATERIAL' sign. Below the banner, there are several news stories. A red circle highlights the 'IAEA Meetings' link in the 'Stories' section. The 'IAEA Meetings' link is located under the 'Stories' tab, with a 'read more' link below it. The 'IAEA Meetings' link is circled in red.

Web Page

The screenshot shows the IAEA website page for the 'International Ministerial Conference on Nuclear Power in the 21st Century'. The page features a search bar at the top, a 'Major Meetings' section on the left, and a main content area with the conference details. The conference is titled 'International Ministerial Conference on Nuclear Power in the 21st Century' and is held in Saint Petersburg, Russian Federation, from 27-29 June 2013. The conference ID is 43049 (CN-206). The page also includes a 'Key Deadline' section with a 'Participation forms to IAEA: 1 June 2013!' and a 'Background' section. The 'Background' section provides context for the conference, mentioning previous Ministerial Conferences and the impact of the Fukushima Daiichi nuclear power plant accident.
