

**Exhibition opportunities during the
International Conference on Challenges Faced by Technical and Scientific Support Organizations
(TSOs) in Enhancing Nuclear Safety and Security:
Strengthening Cooperation and Improving Capabilities**

Beijing, China, 27-31 October 2014

The conference aims to further develop the common understanding of the responsibilities, needs, functions and opportunities of the technical and scientific support to regulatory bodies, as well as to strengthen international cooperation and networking among TSOs with a view to enhancing nuclear and radiation safety regulation. The objectives of this conference are to assess and review ways to further improve the effectiveness of TSOs.

A limited amount of space (exhibition booth) is available for companies' displays/exhibits during the conference. Interested parties should contact the local organizer:
