

**IAEA Cyber Security Information Portal**

Through technology advancements, computers and computing systems become more and more embedded into every aspect of life, including the operations at nuclear facilities. This also includes the increasing placement of sensitive information on such systems. With this growing trend, computer, networks, and computing systems have become a larger target for malicious acts against *nuclear material, other radioactive material, associated facilities, and associated activities.*

## Registration Instructions

Thank you for your interest in joining the IAEA's Office of Nuclear Security Cyber Security Users Group information portal.

The Cyber Security User Group is integrated within the IAEA Nuclear Security Information Portal (NUSEC). Access to this information portal provides access and updates to resources and activities provided by the IAEA in computer and information security. It additionally provides a forum for consultancy groups working in the development of technical guidance. Areas of focus are constantly being updated based upon Member State inputs.

To access the NUSEC Portal and the Cyber Security User Group pages, you will first need to register.

### Process:

To register, please follow the subsequent steps:

1. Go to the NUSEC web site: <https://nusec.iaea.org/>
2. Click on the Register link in the upper-right portion of the screen. You will be directed to the NUCLEUS web site to fill in the registration form.
3. After successfully registering with NUCLEUS, you will be re-directed to the NUSEC web site.
4. On the NUSEC site, you will see another short form to request access to NUSEC specifically. (If you do not see a form, please try going to <https://nusec.iaea.org/portal> instead, or contact the NUSEC Administrator
5. Fill in the form:
  - Select your Nationality
  - Select “—None —” for organisation, if needed.
  - Specify the reason as: “Request an account to access the Cyber Security User’s Group Portal. My IAEA point of contact is Donald Dudenhoeffer, [d.dudenhoeffer@iaea.org](mailto:d.dudenhoeffer@iaea.org).”
  - Select the “Register” button. See figure on following page.

**Registration**

POPE, Noah Gale

Thank you for registering with NUCLEUS and expressing an interest in joining the Nuclear Security Information Portal (NUSEC). Although you have an account, it is not yet approved for access to the portal. To proceed, please confirm or provide the information below.

Selecting the correct Country OR Organization will ensure that your request for access to the portal is directed to the proper individuals for prompt action.

**Country:** (Select your country here)

**Organization:** -- None -- (Select this setting)

It is the responsibility of the NUSEC Liaison Officer (NLO) of your Member State or Organisation to validate your account request. To ensure a correct and quick validation process, you are therefore required to give reasons for wanting to access the NUSEC Portal. Please give as precise and comprehensive information as possible. Your answer will only be forwarded to the responsible NLO.

**Reason:**

Request an account to access the Cyber Security User's Group Portal.  
My IAEA point of contact is Donald Dudenhoeffer, d.dudenhoeffer@iaea.org

Once you submit this information, the proper liaison for the Country or Organization selected will be contacted to approve your request for access. You will receive an e-mail after this request has been acted upon.

6. You will receive an email almost immediately saying you have successfully registered for NUSEC.
7. In a day or two, you should receive a follow-up e-mail confirming that you have been granted access to NUSEC.
8. Once you are registered you can access the Cyber Security User Group from the main tab as illustrated below.
