

VIENNA INTERNATIONAL CENTRE

The Vienna International Centre was designed by the Austrian architect Johann Staber and inaugurated on 23 August 1979. It is located on the banks of the River Danube, only a 10 minute ride by underground (U-Bahn - line U1) to the city centre. The VIC accommodates several United Nations and international organizations. The VIC comprises several buildings, M and C are the conference buildings.

TOILETS

WC facilities for persons with disabilities can be found at Gate 1 and Floors A05, A26, B07, C0E, C02, C04, C07, F0E, F01, F06, F10, G01, G06, M0E, M01 and M02.

LIFTS

Lifts are located in every building in order to enable wheelchair users to gain access to all facilities in the compound.

RAMPS

There are permanent ramps for wheelchair users.

One is located at the exit of the U1 Kaisermühlen VIC Station and leads to the pathway to Gate 1. Another ramp is located at Gate 1. Other building access ramps are located at the entrance of Buildings A, B and C.
