

GUIDELINES FOR THE PREPARATION AND PRESENTATION OF A POSTER

General

Information on a poster should attract attention. It should therefore be limited to the most important facts only. Details and explanations should be left for face-to-face discussions. Text and presentation should be in English.

Posters should be prepared in advance, and should be easily mounted on a poster board. The exact dimensions of the poster boards will be announced later.

Title

The top of the poster should display, in lettering at least 3 cm high, the title of the presentation and the names and affiliations of the authors.

Body

The body of the poster should contain divisions such as Introduction, Method, Results and Conclusions or the equivalent.

The text should be easily readable from a distance of 2 to 2.5 m. Use heavy lettering at least 1 cm high. Ordinary typewritten text is NOT acceptable.

Presentation

Poster authors are requested to be at their posters for discussion with interested participants during the relevant poster session, as will be indicated in the Conference programme.

Size

The size of the poster boards will be communicated to authors at a later stage.

Please note that further details on setting up the posters will be given at the Conference.
