

GUIDELINES FOR PREPARING AND CONDUCTING
AN INTEGRATED NUCLEAR INFRASTRUCTURE REVIEW (INIR)

IAEA Services Series No. 34
(IAEA-SVS-34)

CORRIGENDUM

1. Page v. In the first paragraph, the first sentence should read “As of 1 July 2017, there were 447 operational nuclear power reactors in 30 countries and another 60 were under construction in 15 countries.”
2. Page v. In the first paragraph, the fourth sentence should read “While several operating countries are planning to expand current capacity, about 30 Member States, mostly developing countries, are considering embarking on a nuclear power programme, some are developing the necessary infrastructure, and some others are negotiating or building their first nuclear power plant.”
3. Page v. In the fourth paragraph, the second sentence should read “Since the first INIR mission in 2009, the IAEA has conducted missions in 16 embarking countries upon their request.”
