

EDITORIAL NOTE

These annexes have been prepared from the original material as submitted by the contributors and have been edited to the extent considered necessary for the reader's assistance.

The views expressed remain the responsibility of the contributors and do not necessarily represent the views of the IAEA or its Member States.

Although great care has been taken to maintain the accuracy of information contained in this publication, neither the IAEA nor its Member States assume any responsibility for consequences which may arise from its use.

This publication does not address questions of responsibility, legal or otherwise, for acts or omissions on the part of any person.

Guidance provided here, describing good practices, represents expert opinion but does not constitute recommendations made on the basis of a consensus of Member States.

APPLICATION OF PROBABILISTIC METHODS FOR THE SAFETY ASSESSMENT AND THE RELIABLE OPERATION OF RESEARCH REACTORS
