

EDITORIAL NOTE

These supplementary files have been prepared from the original material as submitted by the contributors and have not been edited by the editorial staff of the IAEA. The views expressed remain the responsibility of the contributors and do not necessarily represent the views of the IAEA or its Member States.

Although great care has been taken to maintain the accuracy of information or data contained in these supplementary files, neither the IAEA nor its Member States assume any responsibility for consequences which may arise from their use. These supplementary files do not address questions of responsibility, legal or otherwise, for acts or omissions on the part of any person.

The use of particular designations of countries or territories does not imply any judgement by the publisher, the IAEA, as to the legal status of such countries or territories, of their authorities and institutions or of the delimitation of their boundaries.

The mention of names of specific companies or products (whether or not indicated as registered) does not imply any intention to infringe proprietary rights, nor should it be construed as an endorsement or recommendation on the part of the IAEA.

The IAEA has no responsibility for the persistence or accuracy of URLs for external or third party Internet web sites referred to in these supplementary files and does not guarantee that any content on such web sites is, or will remain, accurate or appropriate.
