

# Thai Nuclear Power Program

## Current Nuclear Power Program

- The National Energy Policy Council (NEPC) approved Thailand's Power Development Plan 2007-2021 (PDP 2007) and the Thai cabinet acknowledged and approved the PDP in June 2007.
- One major issue stipulated in the PDP 2007 is the designation of nuclear power generation option to supply 2,000 MW of electricity in 2020 and another 2,000 MW in 2021.
- PDP 2007 Rev.2 (Cabinet approved on March 24, 2009), 1,000 MW of electricity in 2020 and another 1,000 MW in 2021 for nuclear power generation.

## NPIEP Milestones for Nuclear Power Program Implementation
