This publication provides an overview of the International Nuclear Management Academy (INMA) master's degree programmes in nuclear technology management (NTM). INMA is an IAEA facilitated collaboration framework in which universities or educational institutions provide master's degree programmes that focus on management competencies for the nuclear sector. INMA Programmes target current managers and young professionals with a potential of becoming future managers working in the nuclear sector.

It contains one supplementary CD-ROM.

Main contents

- International Nuclear Management Academy
- Common Requirements for INMA Nuclear Technology Management Programmes
- IAEA Supporting Tools for Nuclear Technology Management Programme Implementation
- Peer Review Process and Assessment
- Appendix on Suggested Teaching Topics for Each Competency Area
