## The Fukushima Daiichi Accident

Agneta Rising, Director General of the World Nuclear Association:

*"...having a single authoritative account of all the facets of the accident makes the IAEA report indispensable."*

Australia's statement at the IAEA Board of Governors' meeting 8 June 2015:

*"The report [before us today] represents an important step in the international community's response to the Fukushima Daiichi Accident."*

Japan's statement at the IAEA Board of Governors' meeting 8 June 2015:

*"... Japan is confident that the observations and lessons from the report will provide us with essential international guidance for Member States to further enhance their nuclear safety."*

**The Fukushima Daiichi Accident** consists of a Report by the IAEA Director General and five technical volumes. It is the result of an extensive international collaborative effort involving five working groups with about 180 experts from 42 Member States with and without nuclear power programmes and several international bodies. It provides a description of the accident and its causes, evolution and consequences, based on the evaluation of data and information from a large number of sources available at the time of writing.

**The Fukushima Daiichi Accident** will be of use to national authorities, international organizations, nuclear regulatory bodies, nuclear power plant operating organizations, designers of nuclear facilities and other experts in matters relating to nuclear power, as well as the wider public.

The set contains six printed parts and five supplementary CD-ROMs.  
(1254 pp.; 311 figs; 2015) • ISBN 978-92-0-107015-9 • STI/PUB/1710 • €60.00

## Contents:

**Report by the Director General**

**Technical Volume 1/5**  
Description and Context of the Accident

**Technical Volume 2/5**  
Safety Assessment

**Technical Volume 3/5**  
Emergency Preparedness and Response

**Technical Volume 4/5**  
Radiological Consequences

**Technical Volume 5/5**  
Post-accident Recovery
