

Capacity Building in EPR

- Building capacity in preparedness for and response to nuclear or radiological emergencies through:

- Guidance and tools
- Expert missions
- Appraisals
- Trainings

1 Safety Requirements
2 Safety Guides
22 EPR and technical documents
17 Accident reports

- The future of trainings

- E-Learning
- Capacity Building Centres (CBC)

≈ 60 training events per year
> 1,200 trained EPR professionals
per year
≈ 40 expert missions per year

- CBCs will serve as focal point in the regions for the delivery of training, knowledge sharing and transfer of expertise in specialized areas of EPR

IAEA RANET Capacity Building Centre

- 27 May 2013: Designation of the IAEA Response and Assistance Network (RANET) Capacity Building Centre in Fukushima Prefecture by the IAEA, in cooperation with the Government of Japan
- Training courses, workshops and activities related to emergency preparedness and response have been and will be conducted in the Centre (at the local, regional and international levels)
