

**INTERNATIONAL SYMPOSIUM ON
APPLICATIONS OF GENE-BASED
TECHNOLOGIES
FOR IMPROVING ANIMAL PRODUCTION
AND HEALTH IN DEVELOPING COUNTRIES**

**Vienna, Austria
6-10 October 2003**

International
Atomic Energy Agency

Food and Agriculture Organization
of the United Nations

ENQUIRIES

Harinder Makkar
e-mail: h.makkar@iaea.org

Telephone: +43-1-2600-0
Telefax No.: +43-1-26007

Please ✓ at the appropriate spaces [] provided below:

I intend to participate and present a paper in the Symposium []

I intend to participate in the Symposium []

I request information on displaying/exhibiting

equipment and products during the Symposium []

OBJECTIVE

- To create an interactive environment to discuss the role and future potential of gene-based technologies for improving animal production and health
- To identify constraints in the use of this technology in developing countries and how to use this technology in a simple practical way especially for developing countries
- To identify specific research needs and prioritize them
- To explore the possibility of international co-ordination in the area of biotechnology in animal agriculture
- To examine ethical, technological, policy and environmental issues and the role of nuclear techniques in the further development and application of gene-based technologies in respect of livestock

WHO SHOULD ATTEND?

- Scientists from developing and developed countries
- Policy makers
- Donor agencies

BASIC STRUCTURE

- Plenary lectures
- Theme-specific sessions, key-note addresses, contributory papers and posters
- Panel discussion/discussion forum

REGISTRATION FEE

No registration fee is charged to participants.

ACCOMMODATION

A wide range of accommodation will be available. Hotel room rates range from approx. US\$ 40 to 250 per night (with breakfast) while room rates in apartments range from approx. US\$ 30 to 65 per night.
