

## **New Information to Designated Participants: 14 September 2006**

Please be informed that all participants are invited to a **welcome reception** on Sunday, 15 October, in the rotunda of the Vienna International Centre. The reception will take place at the same time as registration for the symposium. Registration is from 16:00 to 18:00 and participants are encouraged to register during that time if at all possible. This will help to avoid queues at registration on Monday morning.

Another important point to note is that due to the large number of registered participants there will be video transmission from the **Opening and Plenary Sessions** on Monday, 16 October from the **IAEA Board Room** (4<sup>th</sup> floor, Building C) to **Conference Room I** (2<sup>nd</sup> floor, Building C). If the IAEA Board Room is full when you arrive, or should you arrive later in the morning, please make your way to Conference Room I.

### **Note for poster authors:**

If possible please take advantage of Sunday registration to put up your posters. Poster boards marked with the respective poster numbers will be available in the rotunda and authors are requested to put up their posters as soon as they have registered and to leave them there until either Thursday afternoon or Friday morning.

As already indicated, the official opening of the poster session is scheduled for Tuesday afternoon, at the end of the last symposium oral session, approximately 18:00. At this session poster authors are requested to be at their posters for approximately 1 hour for discussion with interested participants. The IAEA/INMM joint reception will be held at the same time in the rotunda. Poster authors are also requested to be at their posters for approximately 1/2 hour at the hosted morning coffee break in the rotunda on Thursday, 19 October.

### **Note for speakers:**

Those speakers who intend to use PowerPoint during their presentation and who have not submitted them in advance are requested to load their presentation on to the symposium computer at registration on Sunday. If this is not possible please advise the conference desk when registering as to when the PowerPoint presentation could be loaded.

Should you be unable to attend the symposium please be so kind as to advise us in advance.
